System Required:

Windows: 7/8/10(32/64) or above

Mac: OSX 10.8.5 or above

ACCESSORIES

❶ Battery-Free stylus

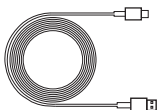

❷ Nib

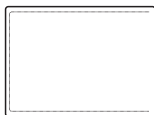

❸ Drawing Glove

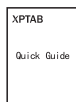

❹ Pen Holder

❺ Type-c Data Cable

❻ Felt Bag

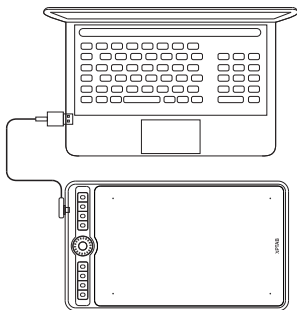

❼ Quick Guide

❽ OTG Adapter

CONNECTING TO COMPUTER

One end of the data cable is connected to the Type-C interface of the tablet, and the other end is connected to the USB interface of the computer to ensure that there is no looseness at both ends.

INSTALLATION

- ★ Uninstall and completely remove any driver of other graphic tablet/monitor installed in your computer/laptop
- ★ Quit all running programs
- ★ Disable any anti-virus software and firewall temporarily
- ★ Run the driver as administrator

① Insert the USB Driver

Please open the U disk or CD-ROM, find the driver installation software (Windows XPTAB Driver or MAS XPTAB Driver) and run it as an administrator, and follow the steps to install.

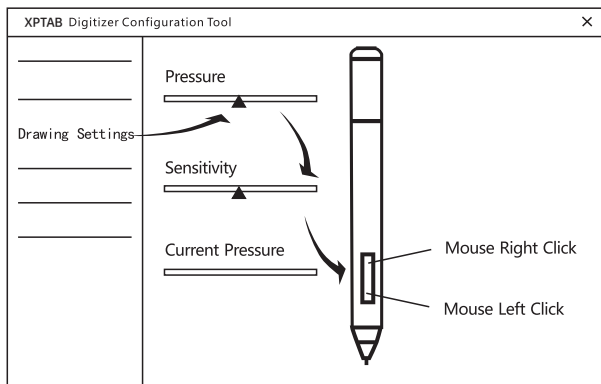

If you do not have the USB Driver, download the installer from XPTAB website and install according to prompts (<http://bostotablet.com/Support/Driver>)

② After a successful installation

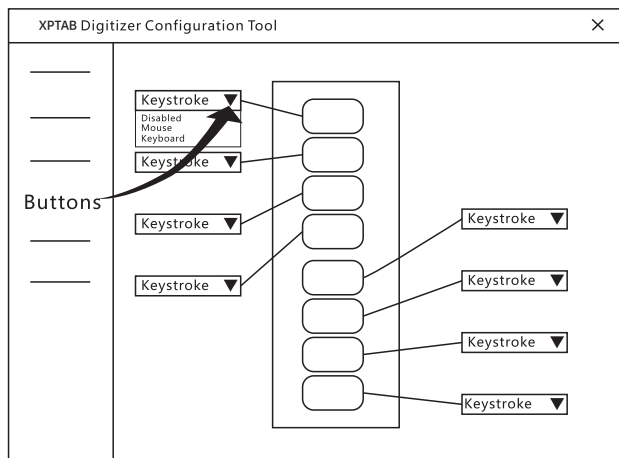

Windows: you can find the “XPTAB Digitizer” Icon at the start menu of your computer/laptop homepage

Mac: you can find “XPTABTablet” in the “LaunchPad”

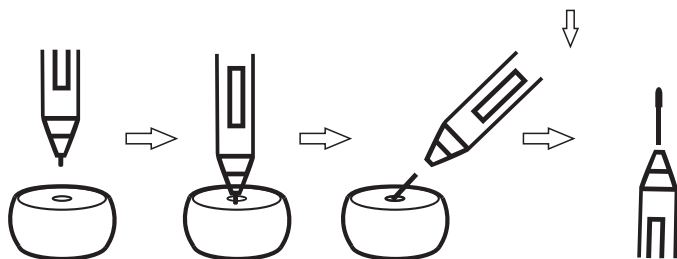

PRESSURE PEN SETTINGS

EXPRESS KEY SETTINGS

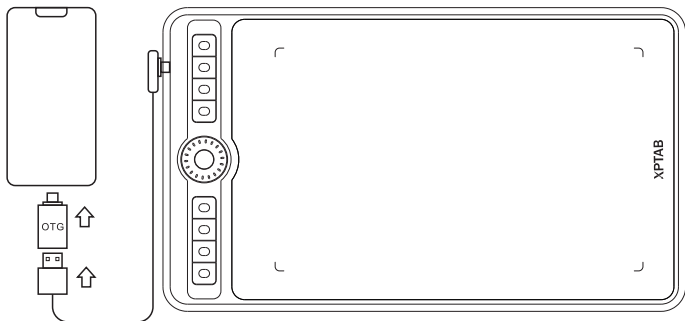

REPLACING PEN NIB

CONNECTING TO PHONE

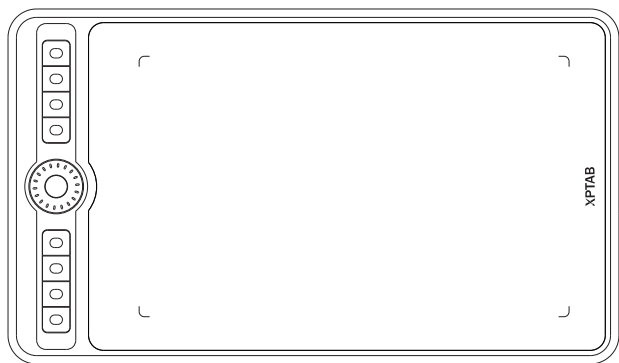

Please connect the Type-C data cable to the OTG adapter, and then connect both ends to the tablet and mobile phone. When the phone shows connection, you can start drawing.

- ★ It can be used only when the phone has OTG function.
- ★ When connecting to a mobile phone to draw, the tablet should be placed vertically.
- ★ The delivered OTG adapter is USB to Type-C, if your phone has other interfaces, please buy it yourself.
